Action Guide

"Open the Door" call for action aims to capture people around the world opening the door from our current world of nuclear weapons to a nuclear weapons free world – and then walking through the door. We aim for a huge variety of Open the Door video clips and photographs. Some will be funny, some serious, some inspiring, others thought-provoking. Be as creative as you wish.

1. **Choose a door** – it could be a door at home, your office, your school/university, parliament, city hall, a tourist spot, place of worship (church/mosque/synagogue), public transport (bus, tram, train, ship, cable car), library or other doors in a public space. If you want to shoot the video at your event (for example on Hiroshima/Nagasaki Day, or International Youth Day), you can "create" a door in public space with an old door frame, or out of some of the people at the event.
2. **Decide on who will open and walk through the door:** yourself, friends and family, your pet, an official (mayor, parliamentarian), passers-by, a celebrity...
3. **Decide on creative ways to depict the world of nuclear-weapons on this side of the door and the nuclear-free world on the other side.** This could be pictures or objects or just the significance of the location itself.
4. **Decide on whether you want it to be silent, or with spoken word.**
5. **Film/photograph** - with your compact camera or a smartphone - the door being opened and walking/stepping/jumping/dancing/cartwheeling through the door.
6. **Post** your video to You Tube or your photos to facebook or your website, including a link to the Open the Door to a Nuclear Weapons Free World website, and send us the links to your posting. If you can't upload your video/photo on the internet, **send us** the files and we will post them for you.
7. **Share** with your online contacts (facebook, twitter...) to encourage them to do an Open the Door action.

Send us your videos and photos by **August 15, 2013** and we will show them to the United Nations during the next sessions of the Open Ended Working Group, to demonstrate that people wish for a nuclear weapons free world.
